

2. Partnership statement¹

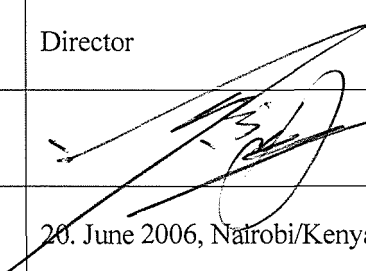

A partnership is a relationship of substance between two or more organisations involving shared responsibilities in undertaking the action funded by the European Commission. To ensure that the action runs smoothly, the European Commission requires all partners (including the lead applicant that signs the contract) to acknowledge this by agreeing to the principles of good partnership practice set out below.

Principles of Good Partnership Practice

1. All partners must have read the application form and understood what their role in the action will be before the application is submitted to the European Commission.
2. All partners must have read the standard financing proposal and financing agreement and understood what their respective obligations under the agreement will be if the grant is awarded. They should authorise the lead applicant to sign the agreement with the European Commission and represent them in all dealings with the European Commission in the context of the action's implementation.
3. The applicant must consult regularly with its partners and keep them fully informed of the progress of the action.
4. All partners must receive copies of the reports - narrative and financial - made to the European Commission.
5. Proposals for substantial changes to the action (e.g. activities, partners, etc.) should be agreed by the partners before being submitted to the European Commission. Where no such agreement can be reached, the applicant must indicate this when submitting changes for approval to the European Commission.
6. Before the end of the action, the partners should agree on an equitable distribution of equipment, vehicles and supplies for the action purchased with the EU grant among local partners situated in the target countries. Copies of the transfer titles must be attached to the final report.
